

HOW TO PLACE YOUR MYTHICAL CONTEST BETS ON SELF-SERVICE MACHINES

- Contest wagers may be placed on a self-service machine. The contest self-service terminals are **RED** and are located on each side of the Horseshoe Event Center. Only mythical contest wagers may be placed on these machines.
- All live money wagers must be placed with a live teller or at a live money betting kiosk.
- You must reset your PIN before you make your first Contest wager.
 - Dunk your branded contest card (card reads when you pull it out)
 - Type in initial PIN 7777.
 - Enter New PIN to reset
 - Enter New Pin again to confirm
 - Re-dunk your branded Contest card(s) to begin use
- There is a Contest card associated with every Contest entry you make. For example, if you have two NHC entries you will have two NHC player cards - Entry 1 and Entry 2. You will also have a Silver Sunday Contest card.
- Contestants are encouraged to make ALL mythical contest wagers five (5) minutes prior to off time. Contestants are solely responsible for making contest selections in accordance with the official NHC rules.
- Official program numbers must be used when placing mythical win-place contest selections. Only one horse per race may be selected.
- Check your printed wager/bet receipt to ensure that your contest race and selection is correct.

IMPORTANT:

SCRATCHES

If your selection in an **Optional race** is scratched, you may cancel and make another selection in the same race, prior to the start of the race, or you may wager on another race, subject to all rules.

Should a scratch occur in a **Mandatory race**, it is the contestants responsibility to cancel the wager and make another selection prior to the start of the race. Otherwise, you will be assigned the post time favorite.

Should no selection on ANY horse be made in a **Mandatory Race**, you will receive zero points for that race.

YOU MAY USE A SELF-SERVICE MACHINE TO CANCEL OR CHANGE A SELECTION. YOU WILL NOT RECEIVE A VOIDED RECEIPT.

INSTRUCTIONS FOR PLAYING ON A WEB BASED DEVICE

Recommended device: Laptop and tablet devices. Mobile devices are not recommended.
